

COVID-19 Safety Policy & Precautions

All members of the STEM for Kids team are fully vaccinated against COVID-19. In addition to this, the following precautions will be taken throughout at all times and locations:

- Upon arrival, a temperature check will be undertaken every morning for all staff and children.
- All staff and children will be masked at all times.
- Children will be seated on tables following physical and social distance guidelines as recommended by the health authorities. Our classroom area supports sufficient room for groups to maintain a physical distance of at least 1.5 meters per child.
- Individuals accompanying children for pick-up and drop-off must be masked.
- There will be limited resource sharing between children and necessary measures will be taken for the same including regular sanitization of surfaces and materials.
- Children will be advised to disinfect / wash their hands on regular basis.
- Children will not be allowed to share meals.
- Parents will be notified immediately if a child shows any symptoms of the disease and may not be allowed back into the camps until a negative result is produced. Teacher's decision in this matter will be final.
- Sufficient stocks of masks and sanitizers will be available in all our classrooms
